CASTLE COLDITZ

Could you Escape Castle Colditz?
Five metres high and covering over one thousand square metres the new Castle Colditz game zone at Skirmish Sherwood Forest is possibly the largest of its kind in Europe and offers a paintball experience unlike any other: High grey granite effect walls, narrow windows, watch towers, archways and perimeter walkways set the scene for the greatest chapter in escape history.

Dominating the surrounding countryside and hundreds of miles from neutral countries, Castle Colditz was the perfect place to incarcerate troublesome prisoners of war. What was meant to be an escape-proof fortress

prison became a haven for the best tunnelers, forgers and daredevils the Allies had to offer. With such "talent" together in one place, escape was almost inevitable.

New games arriving constantly!

Skirmish's continual re-investment program ensures regular updates to our paintball zones and the very best in realism, resulting in new adventures for you during your visits time and time again.
